DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- **Please amend claim 5 as follows:**

5. An optical connector adapter according to Claim 1 [4], wherein said substrate holder is formed from one of silicon or glass.

- **Please amend claim 6 as follows:**

6. An optical connector adapter according to Claim 1 [4], wherein said substrate holder comprises one of a molded silica resin composite or ceramic.

Allowable Subject Matter

2. Claims 1, 5-6, 8-11, 13-14, 17-18, 20-24, & 28-32 are allowed over prior art of record.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, the prior art fails to disclose or make obvious "a single substrate... polished side reference surface formed substantially orthogonal to the top reference surface" and in combination with the other recited limitations of claim 1. Claims 5-6 & 8-10 are allowed by virtue of dependency on the allowed claim 1.
